

Accessories

SAFETY

▶ **BAT/15212**

First aid box (eye care): eye wash, fluid, compress, scissors, paper tissues, sticking plasters and gauze.

▶ **BAT/15165 : size 10**

Acid proof rubber gloves.

▶ **BAT/17096**

Facial screen with swing-back of anti-condensation glass - 180 x 290 mm - 180g.

▶ **BAT/15201**

Safety shower and eye wash station.

▶ **BAT/15172**

Acid proof rubber apron.

▶ **BAT/15159**

Acid proof safety glasses.

▶ **BAT/15204**

Neutralizer, absorber and fire-extinguisher with color indicator. Neutralizes for example acids. When Neutracid colors yellow, the acid is neutralised. 5Kg.

HYDROGEN GAS DETECTOR

Hydrogen gas detectors (HGD) protect battery charging rooms and other locations where motive and stationary batteries are present by continuously monitoring hydrogen gas levels. The HGD is equipped with LED lights and an 80 dB alarm. AC- or DC-Powered models are available with dual relay. Improving Safety in the Battery Room with Hydrogen Gas Detectors.

The HGD is designed for easy integration into your operation's ventilation system. It is available with a single or dual relay, in AC-or DC-powered models. Relays automatically the venting action of the Hydrogen Exhaust Fan Kit or other peripheral technologies, translating alarms directly into coordinated preventative response.

Cable Modular 25' HGD

	Relay	Relay rating	Power requirements	Dimensions	Mounting	Operating temperature
BAT/48251	Dual, Dry Contact Relay	10 A	85 V ac to 265 V ac 50/60 Hz	63,5 x 120,7 x 178 mm	4 x 4,8 mm screws	-10°C tot 40°C
BAT/48268			17 V dc to 60 V dc			

▶ BAT/35779

Seal - drain closer

It is available in 4 sizes. It closes drains and prevents the running off of spilled fluids. Made of flexible PVC that resists water, oil and most of the chemicals. Easy to clean with water and soap, reusable and so economical.

REF	Dimensions
BAT/35779	46 x 46 cm
BAT/35781	61 x 61 cm
BAT/35783	92 x 92 cm
BAT/35785	107 x 107 cm

▶ Retention barrier

The permanent solution

The permanently fixed liquid barriers prevent that fluids or rainwater make an ice rink of your floor, or that harmful substances fall onto the ground. The barriers can be provided at every opening (gates and doors) to collect possible water. The barrier is made of a perforated, preformed steel plate, which is airtight wrapped with very high chemical durable polyurethane.

The barrier, which can be fixed at a flat and pure base, is furthermore supple, so cars, fork-lift trucks and every other rolling material can drive without problems over it.

Color: orange (± RAL 2010) - signalisation color

REF	Dimensions	Description	Photo
